

HEALTHSEAL - INFO

Laine now offer a new high performance treatment for our textile collections.

Healthseal® is a state of the art treatment that is applied throughout the fibres and also includes a breathable moisture barrier backing.

Healthseal® is therefore ideal for tough environments such as Healthcare, Hospitality and Commercial applications.

Healthseal can be applied to any of our textile products and provides the following benefits:-

- Soil release
- Water repellent
- Breathable moisture barrier backing
- Non Flammable
- Antimicrobial, Antibacterial, Antifungal
- Odour free
- Biodegradable
- Non carcinogenic
- Environmentally not bleach cleanable
- No heavy metals
- Classed as a non-dangerous chemical
